One Big Thing Done
A New White Slavery
Big Servant Problem
The Marvellous French
By Arthur Brisbane

THE BASEBALL champion ship is out of the way. Philadelphia and Connie Mack winning, with President Hoover looking on.

Near come the great football games, with Pearl, naval armament reduction and other minor affairs of life sandwiched in between the games.

A Committee of fourteen says night clubs are responsible for today's vice, or some of it.

Old "white slave dealers" are antiquated.

The night club owner engages young women through employment agencies, many of them deliberately and knowingly purveyors of vice.

Young women think that they are engaged as dancing instructors. It is the old "white slave" business on a somewhat different basis, with bootlegging as an adjunct.

French women face a serious servant girl problem, but they will get little sympathy from American housewives.

Women in France complain bitterly because they have to pay a really good cook \$15 a month and board.

"Extravagant Americans" are blamed for the high wages and exaggerated demands of modern French servants. They even ask for hot running water in the kitchen and object to having only a candle for a bedroom light.

It is different in this country.

The French are a marvellous people. No other can compare with them in thrift, determination and sleepless energy.

Just now France is a little bothered by Mussolini's reshuffling of the old Roman empire and its habits, which included the disagreeable custom of trampling north over the Alps.

The French government is spending 100,000,000 real dollars in France, increasing the strength of Alpine fortifications.

The French believe in peace, like it, want it. They also believe in safety and in being prepared.

France has accumulated one thousand millions of dollars in New York, a good American BILLION, equivalent to 25 billions of French francs as much in real money as Bismarck took from France after the war of 1870.

The explanation of such extraordinary resources is simple. FRENCH MEN WORK, AND SAVE.

At home, France is cutting nine billion francs from heavy taxes laid on the French people and the tax reduction favors large families first of all, with a reduction in taxes on wages and salaries.

Dr. Frederick Tiller, professor of neurology at Columbia University, warns you that a head ache is a serious thing. There are 16 different kinds of headaches, all requiring particular care and understanding.

Headaches often come from anxiety and you should be cautious about taking medicine in a headache.

It may kill the headache, while the forces that cause the headache continue working to kill you.

Doctors from Belgium, Switzerland, Germany and Holland are treating the wine region of the Gironde in France well supplied with samples of different wines. They will give them, region on those wines and their effect upon the human system.

The ancient Gauls thought they settled that question long ago.

They came traveling toward the southwest until they reached the land where Burgundy and Rurand wine grow, then they stopped and settled down, saying, "This is far enough. This is the place to live."

They are still living there, although they have a powerful interest in Africa. As water as a steady drink, they have, from the time of the Gauls, from Charlemagne to Napoleon, from Sulla to Clemenceau, from Bonaparte to Pasteur.

Ramsay MacDonald has been taking his fine young daughter with him. Today he is in Canada, the greatest dominion of the great British empire, of which he, a self-educated workman, and an intelligent Socialist, is prime minister.

It is no longer necessary to use a great man to know what he knows.

You read what he says, see his photographs, hear his voice on the radio and you know him.

The country knows, admires and likes Ramsay MacDonald.

Every intelligent man must know the man who is the balance of the British empire, which now is very evenly on the direction of a Tory, Liberal or Socialist.

It is not the kind of GOVERNMENT you have, but the kind of man you have.

Watertown Customers File Petition: Allen and Attwell Confer

A first definite move in the fight for reduction of prices charged by the Edison Electric Illuminating Co. of Boston, was made today by 25 Watertown customers of the company.

Through Atty. Weyland C. Marshall, the consumers filed with the State Board of Public Utilities a petition protesting the present rate of 5 1/2 cents a kilowatt hour and requesting a reduction.

The petition was filed on the eve of a conference today between Gov. Allen and Chairman Atwell of the Public Utilities Commission. The conference is expected to result in an investigation of the Edison plan, with the ultimate aim of effecting a reduction.

PAK SENATE ACTION
It came after the Reading City Council, yesterday, unanimously passed an order urging the mayor to initiate legislation looking toward the city's taking over the Edison company.

The order was introduced by Councilman Michael J. Ward of Reading, who also will seek in the State Senate an investigation of the Public Utilities Commission. Ward is also a representative.

Councilman Ward asserted that, although the Legislature gave the commission authority to initiate hearings for reduction of rates when conditions warranted, no action has been taken by the commission, which has openly confessed that the light rates are too high.

The commission on last Friday refused to approve a four-cent rate for Edison shares and yesterday Edison stock dropped sharply in the market, at one time being 81 points off. It closed at 32 points off.

Today it was announced that directors of the Edison Company have voted to recommend to stockholders that steps be taken to increase the capital stock.

There will be a special stockholders' meeting for this purpose on October 23.

The amount of the proposed new stock issue and the subscription rate will be determined at a subsequent directors' meeting, according to the announcement.

The plan will be applied to payment of the new stock, according to the plan.

Chairman Atwell of the Public Utilities Board, on his return to the State House from a week-end trip before meeting with the Edison company.

GUARD POLLS AGAINST HUB REPEATERS

Lowell Acts on Warning as Seven Cities Vote in Primaries

A heavy police guard against repeaters was posted at every polling place in Lowell today as voters of seven large cities cast ballots in the primaries.

The warning that Lowell was filled with repeaters "imported" from Boston reached the ears of Mayor J. E. Reed, chairman of the Lowell election committee, soon after the polls were opened.

He appealed to Chief Hugh Downey and detectives and uniformed police details were dispatched to each voting place, with orders to challenge and to arrest all suspicious persons. Repeater refused to reveal the source of the warning.

These had been little interest shown in the Lowell primary fight and voting was very light.

HEAVY IN CAMBRIDGE
Cambridge, Lynn, Somerville, Woburn, Melrose and Springfield were the other municipalities at the polls.

Voting was heavy at Cambridge and Woburn, but at Lynn, where the majority rule was expected to call out more than half of the registration, only 15,000 votes had been cast at 3 p. m.

Three hours before closing time, Lynn has a registration of about 10,000 voters, and at the last primary election and in the City of William E. Russell.

Thirty-four of the voters will be offered into the ward in Cambridge.

Flier Fitzmaurice Off on U. S. Mission
Bremen, Germany, Oct. 12 (AP)—James C. Fitzmaurice, Irish flier, sailed for the United States today aboard the liner Bremen, with certain projects he declined to divulge.

He is expected to return to the United States in the near future, where he will be received by the State Department.

Westboro Car Barn Burns, Loss \$25,000
Westboro, Oct. 12 (AP)—The car barn of the Westboro Car Barn, located on the street, was burned this afternoon today. Seven trucks and cars were destroyed, as well as a large number of tools, causing a loss estimated at \$25,000.

FRENCH AND JAP CABINETS VOTE FOR LONDON ARMS PARLEY

NEW GERMAN CROSSERS

Paris Experts Question Berlin's Right to Build Fleet of Six

PARIS, Oct. 15 (AP)—The French cabinet today decided to accept the British invitation to participate in a conference on disarmament at London in January.

French military circles, however, raised the question of Germany's right and intention to construct a fleet of six battleships, which would be a violation of the 1922 London naval treaty.

Some naval experts thought the French cabinet's decision was a mistake, because the biggest French battleship is 24 inches in caliber.
